

Workplace Health Provider, Melbourne and Regional Victoria

- Permanent full-time position
- Unique clinical opportunity – not your normal Chiropractic/Osteopathy position
- Includes car, laptop, phone, equipment and AHPRA registration
- Industry leader in workplace health
- Excellent working conditions
- Join a team of energetic and passionate professionals

Work Healthy Australia is an innovative, fast growing business, with headquarters located in Gisborne, Victoria. We work with leading businesses all over Australia to provide workplace injury prevention and management solutions.

Our team of experienced healthcare professionals work with clients onsite at their workplace to treat injured workers, and create and implement workplace injury prevention strategies.

We are looking for an AHPRA registered Chiropractor or Osteopath to join our team. This role will service our clients metropolitan Melbourne and regional Victoria.

Our ideal candidate would possess the following qualities:

- High level clinical problem-solving and communication skills
- A passion for multi-modal acute injury management with particular focus on upper limb and spinal injuries
- Knowledge of and experience with dry needling, soft tissue techniques, rehabilitation protocols, manual joint manipulation
- Knowledge of and experience in workplace health and safety processes and procedures an advantage
- Passionate and energetic, with a multimodal evidence-based approach to care

We work onsite at companies with workers in manual and labour-intensive roles (think factories and processing plants) to look after their injured employees. Our aim is to help employees stay healthy, safe and injury free at work.

This is a salaried position which includes sick leave, annual leave and superannuation. A car, laptop, mobile phone and all equipment required for the role will be provided, as well as your AHPRA registration, insurance and generous annual training allowance.

We offer comprehensive, ongoing training and clinical skills mentoring. We use a vast range of modalities including several soft tissue techniques, dry needling, and rehabilitation protocols.
